PROJECT EXPERIENCE

Full-Stack Developer (Project Experience)

Full Stack Portfolio Management System

GitHub: <https://github.com/mayuresh-2601/PORTFOLIO-APP>

Live Demo: <https://portfolio-app-tau-lac.vercel.app/>

- Developed a full-stack portfolio management platform using React.js, Node.js, Express.js, and TiDB, featuring a responsive user interface and secure admin dashboard.
- Built RESTful APIs with JWT authentication, MVC architecture, and dynamic CRUD operations for projects, skills, certificates, and contact management.
- Integrated Cloudinary, Nodemailer, MySQL/TiDB, and Axios to enable cloud media storage, email notifications, and efficient data management.
- Applied security best practices including JWT, bcrypt, Helmet, CORS, and environment-based configuration to build a secure and scalable backend.
- Configured Docker-ready deployment and developed in a Linux (Ubuntu) environment using Bash, Linux CLI, Git, and package management while following clean code principles.

Password Generator Web Application

GitHub: <https://github.com/mayuresh-2601/password-generator>

Live Demo: <https://password-generator-smoky-theta-98.vercel.app/>

- Developed a responsive password generator web application using React.js, Vite, JavaScript (ES6+), and Tailwind CSS v4, featuring a modern glassmorphism-inspired user interface.
- Implemented secure password generation with configurable length, numeric characters, and special symbols while ensuring strong password creation through customizable options.
- Built a real-time password strength indicator, clipboard copy functionality, toast notifications, and dynamic UI updates using React Hooks and state management.
- Designed a fully responsive, user-friendly interface with modern animations, reusable components, and optimized performance for desktop and mobile devices.
- Deployed the application on Vercel with GitHub integration, enabling automated deployments and version-controlled development using Git.

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with hands-on experience in designing and developing secure, responsive web applications using React.js, Node.js, Express.js, JavaScript, and MySQL/TiDB. Skilled in building RESTful APIs, implementing JWT authentication, applying MVC architecture, and integrating cloud services such as Cloudinary. Familiar with Linux (Ubuntu), Bash, Docker fundamentals, and Git-based development workflows. Passionate about building scalable, high-quality software and eager to contribute to innovative teams as a Full Stack Developer, Software Engineer, or Linux-focused Developer.

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science
Satish Pradhan Dnyanasadhana College, Thane
University of Mumbai | 2024

GPA: 7.13 / 10

SKILLS

- JavaScript (ES6+)
- React.js
- Tailwind CSS
- Node.js
- MySQL
- REST APIs
- Git & GitHub
- Ubuntu
- Linux CLI
- File & Process Management
- Bash
- Docker
- Shell Scripting
- Process Management
- Networking Commands
